**A passionate drive to innovate.**

**An incredible desire to connect.**

**A high-held value of sharing knowledge.**

Eurodiesel Services was founded in 1997 on the belief that access to high-quality, yet affordable aftermarket solutions for powertrain systems should be easy. We have worked diligently to make this a reality by connecting manufacturers, suppliers, and customers to create innovative aftermarket solutions.

We are thrilled to embark on the next phase of our journey in supporting green vehicle technology, beginning with hybrid battery reconditioning and maintenance. In addition to our core services, we have expanded our portfolio to include a range of products under our own homegrown brand, ED Solutions. This includes advanced injectors, pumps, and cleaning solutions that utilize the latest efficient technologies, all designed with environmental sustainability in mind.

We remain committed to innovating and enhancing our offerings to meet the evolving needs of our customers and suppliers.

*Harry Jeswani*

Chairman

## ABOUT US

### OUR VISION

To create the platform of choice for aftermarket solutions.

We intend to become a one-stop solution provider for aftermarket powertrain systems and solutions by connecting all key stakeholders in the industry.

### OUR MISSION

To enable sustainable growth for our customers through innovative aftermarket solutions.

Our solutions help customers grow their business. We measure success based on long-term satisfaction of our customers. As forward thinkers, we strive to simplify solutions and provide high-quality, durable and affordable products and services.

### WHAT WE DO

We provide end-to-end powertrain solutions that include OE and replacement parts, components, and test equipment.

We also provide repair services, solutions, and trainings for the fuel injection systems and turbochargers aftermarket industry.

We have continued to grow and evolve since 1997 and today we are privileged to work with customers, in over 40 countries across the world, from our offices in the United Arab Emirates, India and Africa.

*Trusted People. Innovative Solutions.*

## OUR PRODUCTS

When you require essential engine components, diesel applications, or testing equipment, turn to Eurodiesel Services for industry-standard, high-quality products you can trust. We provide OEM, aftermarket, and reconditioned parts for diesel fuel injection systems, all backed by an industry-leading guarantee. No other supplier offers the extensive inventory network we do.

While OEM parts are often the best choice, they may not always fit your budget. That's why we offer a diverse selection of turbocharger and fuel injection parts as well as specialized equipment under our flagship brands, ED Solutions and HR™. Our products are manufactured to OE standards, prioritizing both quality and affordability to meet your needs.

### ✓ DIAGNOSTIC EQUIPMENT AND SOLUTIONS

We offer an extensive range of authorized OE and aftermarket test equipment that will enable you to provide industry-leading diagnostic services. Our product line includes garage auto equipment for diagnostics of power steering racks and pumps, shock absorbers, brake calipers, starters, alternators and voltage regulators; flushing and testing test benches for AC compressors. To help you get an immediate return on investment, we provide installation, training and on-going support on the equipment purchased from us.

### ✓ TURBO BALANCING EQUIPMENT

Turbo balancing requires critical tolerances and we offer industry-leading equipment that can balance your turbochargers to the tightest tolerances in the industry.

### ✓ CLEANING SOLUTIONS

At Eurodiesel Services, we offer industry-leading Ultrasonic and DPF cleaning solutions specifically designed for cleaning all types of auto industry components. We offer a high quality Ultrasonic cleaning solution under our own flagship brand, ED Solutions.

### ✓ DIESEL FUEL INJECTION PARTS & PUMPS

The fuel injection system is the most complex component in your diesel engine. Improper parts, maintenance, and care of your fuel injection system can cause complete failure. At Eurodiesel Services, we are authorized Component OEM and Aftermarket Distributors for various name brand products and our long-standing relationships with manufacturers allows us to offer an extensive range of genuine parts and products for less.

### ✓ ULTRASONIC CLEANING

Ultrasonic cleaning is the better and green way to clean. At Eurodiesel Services, we offer industry-leading ultrasonic cleaning equipment and solutions specifically designed for cleaning all types of auto industry components.

### ✓ AUTOMOTIVE PARTS

We supply a wide range of automotive aftermarket spare parts, and are the authorized distributors for Bosch and Delphi automotive parts in certain parts of Africa.

### ✓ TEST BENCH & SPECIALIZED TOOLS

Whether you're an authorized diesel specialist or a vehicle repair shop, we can provide the right support and equipment to meet your needs. We offer an extensive range of OE and aftermarket diesel fuel injection testing equipment. We also offer an extensive range of specialized tools for dismantling and assembling fuel pumps.

### ✓ RECONDITIONED PUMPS, INJECTORS AND TURBOCHARGERS

We stock a comprehensive range of reconditioned pumps, injectors and turbochargers from Eurodiesel Services and other name brands. All items are reconditioned using OE parts, tested to OE specifications and backed by our Product Warranty Program.

### ✓ TURBOCHARGERS

We work with the largest manufacturers of turbochargers in the world to maintain a vast inventory of turbochargers and turbocharger parts to service any commercial or consumer

## OUR SERVICES

At Eurodiesel Services, we proudly offer a wide range of specialized services tailored for heavy commercial vehicles, equipment, and passenger vehicles that run on petrol and green technology. Our focus is on enhancing engine quality and improving vehicle efficiency while prioritizing environmental safety. With both parts and services conveniently available under one roof, we leverage this advantage to provide better pricing, comprehensive warranties, and speedy service.

You'll find an extensive selection of OE, aftermarket, and reconditioned components, all backed by our factory-trained and experienced technicians who are dedicated to your success. Plus, our Parts & Labor Warranty program gives you added confidence when you choose to work with us.

### DIESEL FUEL INJECTION REPAIR

Our workshops are equipped with state-of-the-art test equipment that give us the most efficient and precise way to examine components, so that we are able to provide the best repair solution for a diesel engine.

Our goal is to extend the life of the diesel engine and avoid costly downtime for our customers.

Our Diesel fuel injection service portfolio includes:

- Common Rail Injector Testing and Repair
- Mechanical Injector Testing and Repair
- HEUI and EUI Testing and Repair
- Common Rail Pump Testing and Repair
- Mechanical Pumps and EDC Pumps Testing and Repair

### CALIBRATION SERVICE

Our calibration services bring unmatched accuracy to your automotive systems. Equipped with cutting-edge technology and premium components from trusted brands. We ensure every calibration meets the highest industry standards.

### RECONDITIONING OF PUMPS & INJECTORS

At our workshops, we rebuild and recondition used turbochargers, and fuel injection pumps and injectors under the Eurodiesel Services brand.

Each part is completely stripped of its components, the worn-out components are scrapped, and new high-quality replacement parts are integrated. All rebuilt/reconditioned parts are tested for quality assurance and backed by our Product Warranty Program. With us, you have two options:

- Buy from our stock of reconditioned items;
- Exchange your used item for a reconditioned item from our stock, for a value.

### A/C COMPRESSORS TESTING & SERVICE

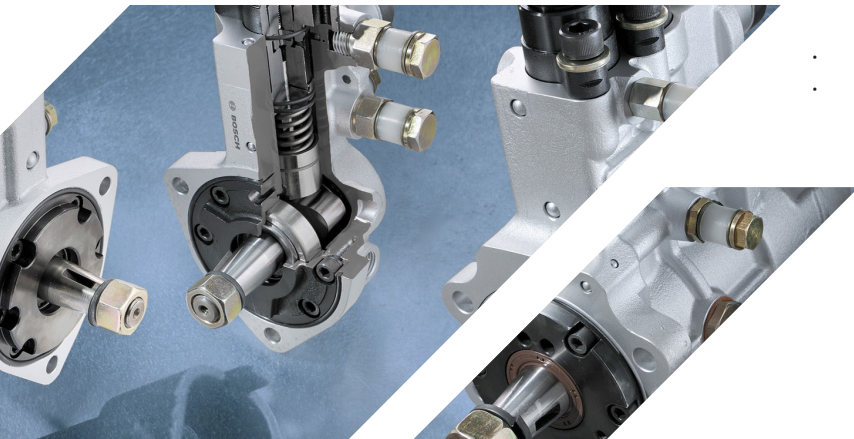

Vehicle AC compressor malfunctions are often caused by overheating, dust, or moisture. Early detection can prevent costly repairs but requires precise diagnostics. Our advanced equipment simulates real-world conditions, provides real-time test results, and evaluates performance before and after repairs. Backed by a team of experts, we ensure accurate diagnosis, effective solutions, and timely preventative care for your AC system.

### ENGINE CARBON CLEANING SERVICE

Carbon deposits can cause engine issues like misfires, vibrations, and increased fuel consumption, potentially leading to failure. Our 20-minute, chemical-free carbon cleaning service restores performance without

### DIESEL PARTICULATE & CATALYTIC CLEANING SERVICE

Restore performance and reduce emissions with our specialized cleaning services. Using advanced cleaning technology, we thoroughly clear soot and debris from diesel particulate filters (DPF) and catalytic converters, ensuring optimal function, improved fuel efficiency, and compliance with emission standards.

## TURBOCHARGER REPAIR

Turbochargers are precision engineered products and repairing them is a highly skilled job that requires the use of specialist equipment and precision engineered repair parts. We are equipped with a unique equipment that integrates all that is needed to repair turbochargers and gives us 100% precision. We use high quality parts, including Melett and Jrone, and have full understanding of the complete turbo assembly.

## DPF CLEANING SERVICE

You can entrust us with the cleaning of your Euro V and Euro VI applications fitted with DPFs, EGRs, SCRs, DOCS, Catalytic Convertors, inter-coolers, manifolds along with other components. We diagnose the complete selective catalytic reduction (SCR) system with special software and modulate the complete system. Further, we also provide a full 'Before & After' report, so that our customers can know the exact condition of their DPF. With our latest technology cleaning equipment, we are able to offer our customers best performance at an economical price with a fast turnaround.

## ELECTRONIC POWER STEERING SERVICE

EPS unit replacement is no longer needed! We are equipped to repair Electronic Power Steering in the most efficient manner. Our diagnostic tools allow us to test EPS pumps, racks and columns on real-time basis and identify a software or mechanical fault with ease. We are also equipped to test the torque sensor of a steering rack.

## GASOLINE FUEL INJECTION REPAIR & SERVICE

Our technicians are trained and fully equipped with automated equipment to repair all types of gasoline fuel injection systems, including the modern high-pressure GDI. Used injectors are carefully cleaned, without damaging any components, using an ultrasonic cleaning machine.

## HYBRID BATTERY MAINTENANCE SERVICE

All hybrid batteries wear out over time, but several factors influence when that happens—battery chemistry, the number of charge and discharge cycles and temperature extremes. At Eurodiesel, we use sophisticated equipment to test, analyze and rebuild hybrid batteries. Instead of buying new, our customers have the option to fully replace or rebuild their battery pack at a fraction of cost to buying new. Alternatively, we also have a range of new battery packs to fit various models. Our hybrid battery packs have an extended lifespan

## DIAGNOSTIC & TROUBLESHOOTING SERVICE

Our specialist diagnostics equipment gives us dealer level access to most vehicle computer systems. There are literally hundreds of potential error codes that can only be read by specialist vehicle diagnostic equipment. By diagnosing a problem correctly and quickly we ensure cost-effective repairs at all times.

## STARTERS AND ALTERNATORS SERVICE

Whether you have a light, heavy, or industrial vehicle, we are well-equipped to quickly turnaround a complete quality diagnosis of alternators and starters. We can evaluate the technical condition of 12/24V starter motors, alternators, as well as all types of the latest voltage regulators under different loads and are able to test results real-time. Furthermore, we perform a post-maintenance test of the electrical unit to give us additional accuracy of repair.

## EURODIESEL SERVICES ACADEMY

*At Eurodiesel Services Academy, we believe in the power of knowledge-sharing. We are dedicated to helping our customers scale their businesses by enhancing their technicians' skills.*

The Eurodiesel Services Academy is a dedicated training initiative aimed at equipping technicians with advanced skills in diesel and gasoline injection systems. This program emphasizes hands-on training using state-of-the-art diagnostic and repair equipment, ensuring that technicians remain current in an industry where technology is continuously evolving.

The Academy supports automotive service providers and workshops by enhancing their workforce's expertise, enabling them to deliver faster and more accurate services to their clients. Each year, the Eurodiesel Services Academy trains several technicians, bridging the gap for those with limited access to formal trade education and preparing them to tackle complex technical challenges effectively.

### WHAT WE OFFER?

#### Training Courses

Our comprehensive training programs focus on diesel and gasoline injection systems, allowing participants to specialize in:

- COMMON RAIL PUMPS AND INJECTORS
- EUI AND EUP INJECTOR UNIT MODELS
- CATERPILLAR PUMPS AND INJECTORS AND COMMON RAIL
- HEUI INJECTOR UNIT MODELS

#### Enhanced Training

Following the initial training, automotive technicians and mechanics can further develop specialized skills, becoming experts in specific areas of their field.

#### Certification & Support

Upon successful completion of the training courses, participants receive certification from the Academy. Our commitment to our students continues with ongoing support in all areas covered during the training.

**Join us at Eurodiesel Services Academy to elevate your skills and become a leading expert in the automotive industry!**

## AUTHORIZED SERVICE AGENCIES

Our processes, OE test equipment, and service centers in the United Arab Emirates and India are officially authorized by globally recognized OE brands.

## OUR PARTNERS

### OEM PARTNERS

*DENSO*

**Delphi**  
Technologies

### AFTERMARKET PARTNERS

**ROBIEL**

### EQUIPMENT PARTNERS

We are the official regional distributors of advanced technology equipment and tools, specializing in diagnostics, testing, and cleaning solutions for diesel and gasoline systems, ensuring precision and efficiency in every application.

## AWARDS AND AFFILIATIONS

### AWARDS

At Eurodiesel Services, we take pride in offering unmatched service, technical expertise, and exceptional customer satisfaction. Our unwavering commitment to excellence has earned us prestigious industry recognitions, further solidifying our position as a leader in the automotive service sector. Here are some of the distinguished awards we have received:

- SERVICE PROVIDER OF THE YEAR - COMMERCIAL VEHICLE 2024**  
HIGHLY COMMENDED, AUTOMECHANIKA DUBAI
- EXCELLENT PARTNER 2024**  
TORCH
- SUPPLIER EXCELLENCE AWARD 2024**  
AL NABOODAH GROUP
- SERVICE PROVIDER OF THE YEAR - COMMERCIAL VEHICLE 2023**  
WINNER, AUTOMECHANIKA DUBAI
- WORKSHOP OF THE YEAR - PASSENGER CARS 2023**  
FINALIST, AUTOMECHANIKA DUBAI
- DIESEL SYSTEM - CUSTOMER AWARD 2021-2022**  
2ND PLACE, TOP ACHIEVEMENT , BOSCH
- BEST PERFORMING BUSINESS PARTNER 2018**  
2ND RUNNER UP, BOSCH

### AFFILIATIONS

Eurodiesel Services LLC is proud to be affiliated with:

- **Association of Diesel Specialists ('ADS')**. ADS is a worldwide diesel industry's leading trade association, dedicated to the highest level of service on diesel fuel injection and related systems.
- **GROUPAUTO International** is one of the world's largest original spare parts distribution and service & repair networks for Passenger cars and Commercial vehicles.
